TO THE HONORABLE SENATE AND HOUSE OF REPRESENTATIVES OF THE UNITED STATES, IN CONGRESS ASSEMBLED:

We, your Memorialists, the members of the Senate and House of Representatives of the Legislature of the State of Idaho, assembled in the Thirty-seventh Session thereof, do respectfully represent that:

WHEREAS, it is known that one of the most pressing problems facing all areas of the United States and in fact all areas of the world today is the securing of the maximum beneficial use of land and water resources for the further progress of our people, of our state, and of our nation, not only to realize the most from our present resources for the immediate problems of today, but also to meet our future needs for the long-range future; and

WHEREAS, the area of southwestern Idaho known as the Mountain Home Snake River plain area contains a large body of land which is both economically and engineeringly feasible for the development of a highly productive and economically desirable potential for the further development of the people of this area and of the nation, and which would add greatly to the overall economy and assist in stabilizing the existing economy of this state and of the nation, and would present many opportunities to stimulate the economic growth of the state and of the nation; and

WHEREAS, adjacent to this fine body of potential irrigated land there are adequate supplies of water in the Snake River which are now running off and unused in
